

For Immediate Release
3rd June 2009

Nicholas James
Hatton Garden Jewellery Week
6th 14th June 2009

To celebrate this year's Hatton Garden Jewellery Week, Nicholas James will be showcasing his new summer collection and the work of an elite selection of contemporary jewellery designers. Highlights include...

THE £250K DIAMOND & PLATINUM NECKLACE THAT TOOK 375 DAYS TO CREATE

Iraja, 'born of water', is a stunning, cascading necklace crafted with 303 diamonds weighing 6.15 carats and 450 grams of platinum. On view in the UK for one week only.

Nick the design force behind Nicholas James comments, "*Arunima Bhaumik has captured the essence of water and fluidity perfectly in the amazing creation 'Iraja'. The impressive use of texture, shape, contrast and diamonds give the necklace a three dimensional feel and one of movement, highlighted by the unique properties of platinum. It is a necklace that is truly one of a kind.*"

SOME GIRLS SPEND £5,000 ON THEIR WEDDING DRESS, HOW ABOUT SOMETHING FOR THE GROOM?

"The platinum bow tie and cummerbund are such a fun and frivolous way of integrating platinum into an evening ensemble for the man who has everything.

Platinum has been woven into the thread of the pieces which allows for the sheen of the metal to dominate whilst maintaining the look of silk - a very innovative and clever idea." says Nick.

ELIZABETH POWELL DESIGNER EXHIBITION

Nicholas James is holding a spectacular launch of Elizabeth Powell's first collection. See her exquisite jewellery that captures the sumptuous colours and delicate beauty of the finest blooms.

WINNING WINDOW DISPLAY

Renowned for its innovative and striking interior, Nicholas James will be unveiling a very special frontage for Jewellery Week featuring the winning entry from Central Saint Martin's students.
